2-1 Domains for COMTURE Services

R

2-2 Major Examples –Konica Minolta Japan, Inc.–

Example of cloud use - 1

Better customer satisfaction by centralizing inquiry/response records

Stores on the cloud previously dispersed data, from requests to repair work

Centralized management and visualization of the entire repair process improves efficiency and customer satisfaction.

Centralized management of the entire work process on the cloud for easy visualization

Separate management of responses for each product and department

2-3 Major Examples –Operator of a diversified retail facility–

Example of cloud use -2

Omnichannel application procedures for convenience and better business processes

Established a portal for parking facility use applications to make this process more convenient and reduce the volume of work required

The customer portal makes applications easier and simplifies steps for progress management after an application is received.

Applications and processing are done on the portal, providing automated management and visualization

13

Previously used e-mail and telephone for applications and a manual management process

2-4 Major Examples

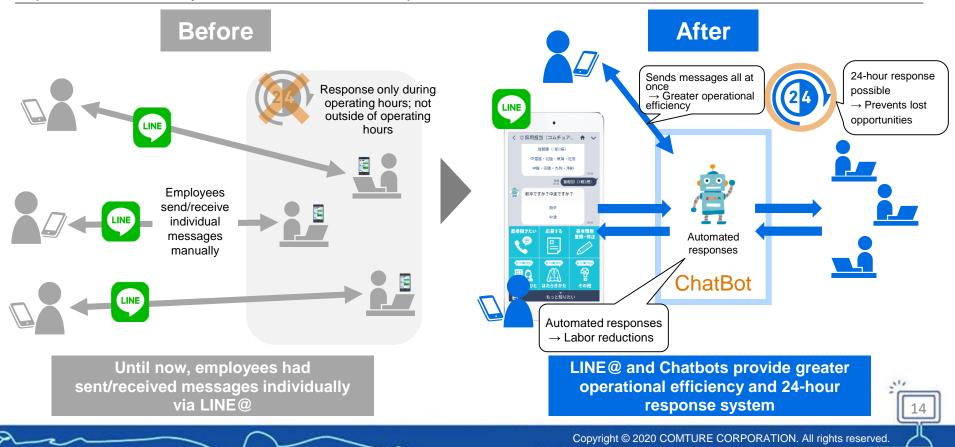

–Japan Nursery Service Inc.–

Example of cloud use – 3

Automated response via Chatbot

Working with Chatbots (automated response robots) to support improved operational efficiency and strengthened response capabilities

When communicating with applicants for nursery school teacher positions, automated response improves operational efficiency and enables 24-hour response

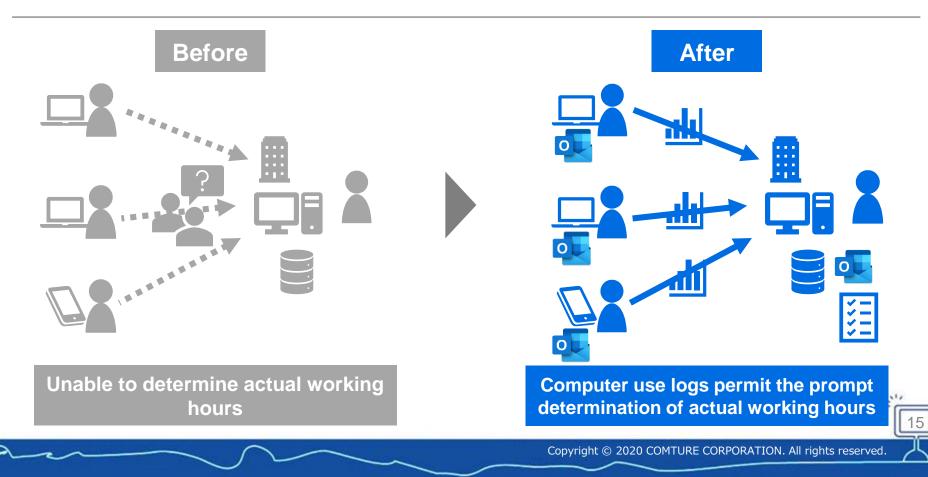

2-5 Major Examples –Large financial institution–

Example of cloud use – 4

Use of Office 365 to reveal the facts about "hidden overtime"

Logs for Office 365 use provide data about actual working hours

The use of log data increases the ability to identify improper overtime work by employees.

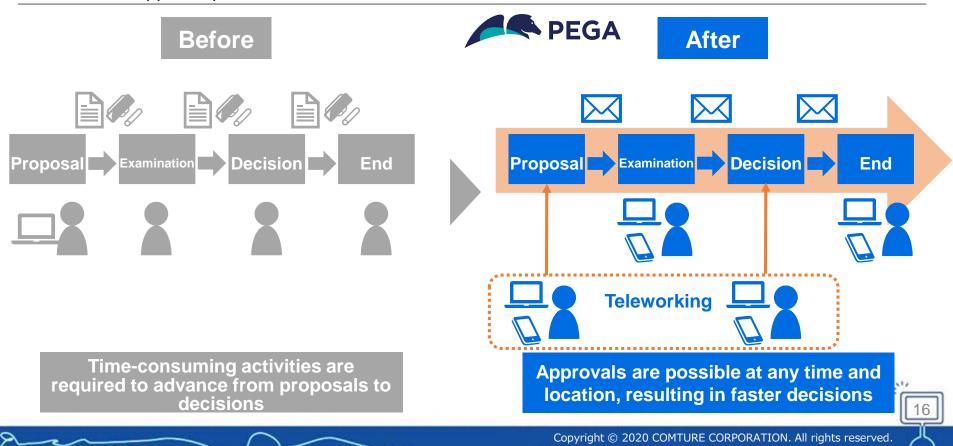

2-6 Major Examples –Large manufacturing company–

Example of cloud use – 5

Electronic approval documents for a more efficient approval process

An e-document system for decisions makes approvals easy even for telework

Moving approvals to the cloud eliminates paper documents and personal seals, thereby preventing delays and omissions in approval procedures.

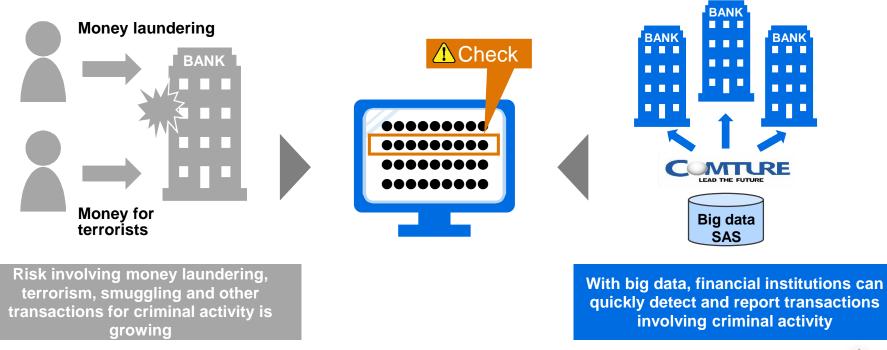

2-7 Major Examples –Large bank–

Example using big data and AI solutions – 1 Solution for detecting accounts linked to criminal activity

Collection and analysis of transaction data (big data) to facilitate automatic detection of illegal transactions

A big-data-based transaction monitoring system can be used to collect and analyze day-to-day transaction information and automatically detect suspicious activity.

2-8 Major Examples –Solaseed Air Inc.–

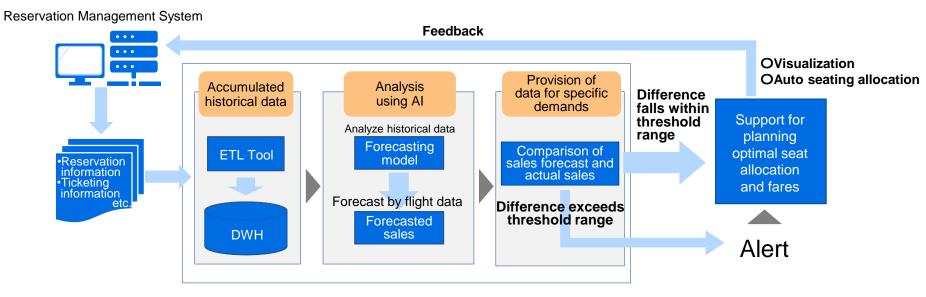

18

Example using big data and AI solutions – 2 **Revenue management system**

Use of AI for analysis of large amounts of flight ticket sales data (big data) accumulated from the past

Forecasting future demand and comparing it with actual sales, AI optimizes pricing that minimizes seat vacancy rate, which ultimately leads to maximizing profit.

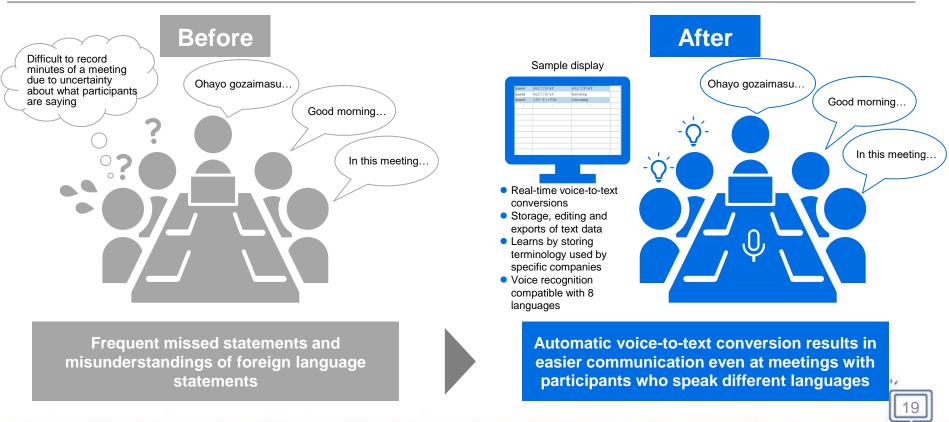

In the past, fares were determined based on the forecasted demand by human instinct and experience Expansive historical sales data are analyzed using AI for demand forecasting. Optimal pricing is derived based on the past sales

2-9 Major Examples —Large non-ferrous metals manufacturer—

Example using big data and AI solutions – 3 Improvement of communication quality using voice-to-text conversion and automatic translation

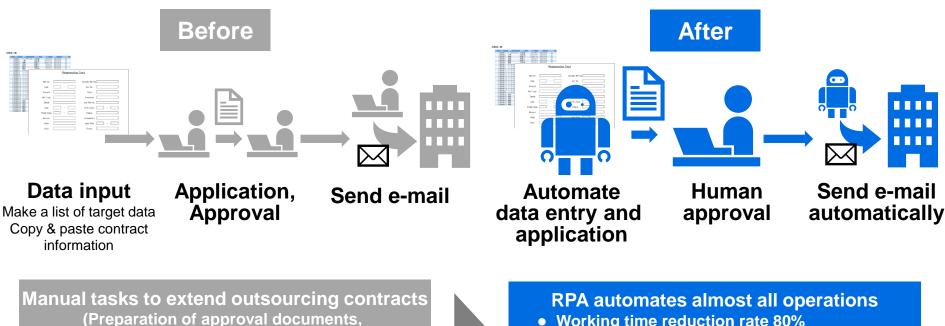

Reduces rechecking statements and misunderstandings of foreign languages at meetings Real-time conversion using AI of statements to text and immediate translations raise the quality of communications. Also optimizes the vocabulary to match specific companies and industries by using terminology/voice data learning and a dictionary function.

2-10 Major Examples –Large manufacturing company–

Example using RPA (Robotic Process Automation) Automation of contract creation / approval / sending work

Automation of manual tasks to reduce work times and eliminate input/entry errors RPA automates almost all excess labor related to outsourcing contracts, which reduces costs and improves overall quality

application by workflow, send e-mail to outsourcing service provider)

- Working time reduction rate 80%
- Eliminate input errors and erroneous mail transmissions

20

2-11 Major Examples

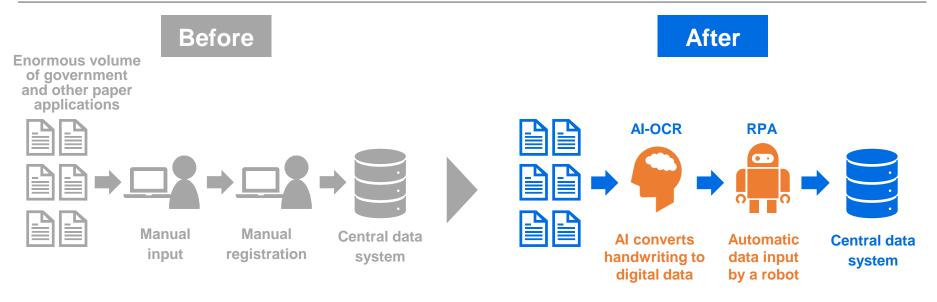

21

Example using AI and RPA (Robotic Process Automation)

Use of AI-OCR for automation of benefit procedures at local governments and other organizations

Fully automated, from using AI to read paper documents to using RPA for system input Improves efficiency and facilitates working style reforms by greatly reducing time-consuming paper document data input

Manual data input is time consuming and results in many mistakes

Automation from reading documents to data input eliminates mistakes and improves efficiency

2-12 Major Examples

Example using cloud and platform

Using the cloud for creating a simple and safe teleworking environment

Safe access to internal IT systems by using a virtual desktop infrastructure (VDI) Allowing access to an internal IT system from external PCs creates an environment for working style reforms using teleworking

3 Business Strategies

Copyright © 2020 COMTURE CORPORATION. All rights reserved.

3-1 High Added-value Strategy

Virtuous cycle of growth and sharing profits based on high added-value management

High added-value Sales per employee up at least 5% every year

COMTURE value (branding)

Consulting and better proposal skills

Better services

Increased productivity

Expansion into areas of expertise

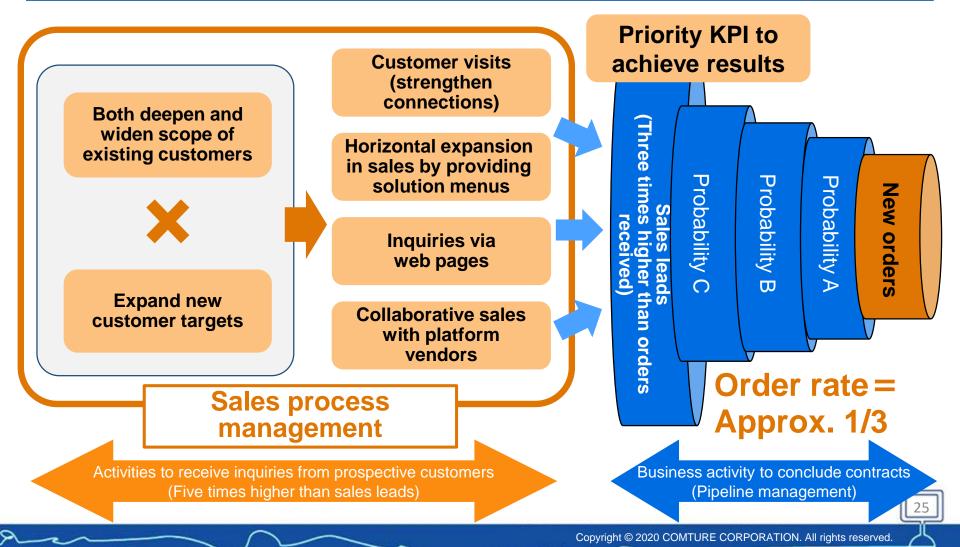

Work style reform (telework)

3-2 The Sales Process Strategy

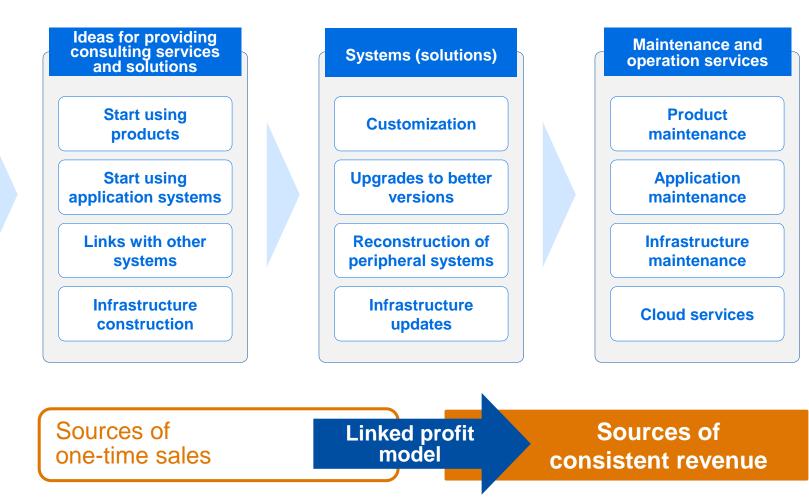

Sales leads = Three times higher than orders received – Leading indicators for achieving the target for new orders

3-3 The Linked Profit Model —One-time sales and consistent revenue—

50:50

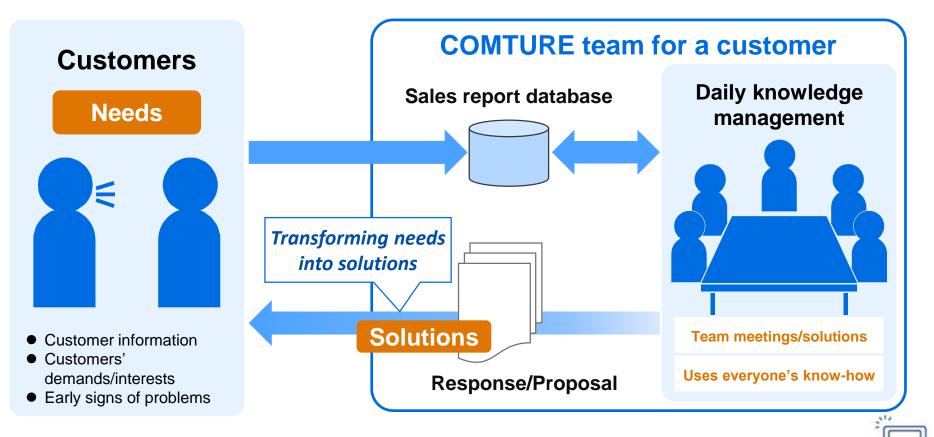

3-4 Customer Strategy

Reinforce consulting sales skills to improve customer satisfaction

Account system engineers who have close ties with customers identify each customer's needs. Then the aggregate know-how of a team is used to create ideas for transforming these needs into solutions.

3-5 Business Growth Strategy

Approach to digital transformation

3-6 Human Resources Strategy (Recruit and train talented young people)

Training and recruiting for adding more value

[Training programs]

Cloud	A leader in professional certifications (Microsoft, AWS, Salesforce, etc.) for cloud business growth – 1,000 people with certifications (plan)
Digital	Quickly train people to become digital transformation and data science specialists to promote for the Big data/AI/RPA/Blockchain businesses – 1,000 people with certifications (plan)
Upgrade proposal/ management skills	Training to upgrade skills for management and creating value-added proposals involving new market sectors and new technologies

[Recruiting]	
Recruit talented personnel	People are the source of corporate value. Recruiting standards will be raised in order to hire talented individuals on a continuous basis New graduates – FY2020: 120/ FY2021: 70–100 *Nikkei Computer magazine included COMTURE in its list of the 100 most popular IT companies for job seekers

3-7 <u>7 Basic Strategies for Further Growth</u>

1 Growth Strategy	Achieve consistent growth by using actions centered on high value-added management for raising sales per employee and using rigorous sales processes for generating sales leads three times higher than orders received
2 Customer Strategy	Through proposal activities to "transforming needs into solutions," comprehend customer needs to provide timely proposals and aim for developing innovations with customers
3 Human Resources Strategy	Actively recruit human resources with comprehensive skills that can handle new technologies, and through human resources training to heighten proposal capability and technical capability, structure a creative group that can achieve a high rate of growth
4 Innovation Strategy	To create new value, reinforce digital transformation fields and concentrate on developing new technologies, solutions and services that keep COMTURE at the forefront of progress
5 Quality Strategy	Refine project management and advance visualization of quality, process and costs to strengthen activities for improving the quality of services and customer satisfaction
6 Financial Strategy	Aim for a higher equity ratio and ROE and constantly implement management that increases corporate value in order to become a company able to achieve sound and stable growth
7 Alliance Strategy	Use business alliances and M&A to build a stronger business foundation centered on the growing digital domain in order to grow even faster
	30

Closing "Our Slogan"

Be a source of "excitement" for customers and "dreams" for employees
